

# **How we Measure and Assess the Impact of the Careers Programme**

Belmont Park School works closely with Inspire who both provide and support us with our work experience programme.

## **Why we evaluate**

The careers programme is evaluated every year to assess it's efficiency and areas for improvement. Key stakeholders (parents, teachers and employers) provide feedback on the participation in an activities questionnaire and /or surveys throughout the year.

We use evidence collected to inform continuous improvement of the programme.

## **What we evaluate**

We review samples of stakeholder feedback collected using various methods after activities, events and experiences implementation and what was delivered against the programme and how it went.

## **Review of the Careers Programme**

The Careers Programme is reviewed annually. The date for the review will be on March 28<sup>th</sup> 2024.
